Saloon Length	5165mm	6100mm

VEHICLE SPECIFICATION

- ◆ Aesthetically pleasing coach style bodywork designed for positive impact on operational costs.
- ◆ Framework – mild steel or Cromwell 3CR 12 stainless – ring frame method for strength.
- ◆ 18mm marine plywood floor.
- ◆ Flat saloon floor, tailored to meet specific requirements.
- ◆ Easy access steps.
- ◆ Numerous seat styles with vinyl, fabric or moquette covers, fixed or removable with total flexibility using combinations of single or double seats, to M2.
- ◆ ‘Mellordec’ safety floor tracking.
- ◆ Interior is lined with purpose made moulded panels to cab, saloon roof coves and rear bulkhead.
- ◆ Centre roof panel & waist panels in soft trim, roof coves are GRP preformed panels.
- ◆ Single leaf glider or plug door at n/s/f.
- ◆ Double quarter width doors are glazed top and bottom, fitted with locking gear and automatic 180° retainers (improved aperture dimensions of 1740mm height X 1190mm width).
- ◆ Heavy-duty slip resistant vinyl floor in a choice of colours.
- ◆ Handrails in smooth tubing (ergonomically styled) high visibility colour are fitted at the forward end of the saloon.
- ◆ Plain or tinted toughened safety glass, fixed or with top ventilation units.
- ◆ Gasket glazed screen and windows.
- ◆ Independent combustion heater.
- ◆ Fluorescent saloon lights, complete with blue night lights and step lights.
- ◆ Radiused rear panels incorporate standard Sprinter rear lamps and feature high-level rear lamps recessed into the bodywork, all hi-level lamps are LED.
- ◆ Single colour two pack acrylic.

OPTIONAL EXTRAS

- ◆ Two lift up roof vents or electrically operated extractor vent.
- ◆ Climate control/air conditioning.
- ◆ Laminated panels to waist area.
- ◆ Arm rests, head rests & grab handles.
- ◆ Rigidised handrails.
- ◆ Bonded windows.
- ◆ Client’s livery.
